

Wasabi Salad

An exquisite taste sensation!

Wasabi Salad is a soft green leaf with a unique texture. It delivers an exciting burst of wasabi flavour to the palate.

It's perfect for hot and cold salads, or as a garnish, and can enhance any dish. Wasabi Salad will appeal to those who appreciate an exquisite taste sensation.

Origins

Wasabi Salad was created by intercrossing some very rare and unusual salad varieties as part of a broader breeding program. During the process they discovered the highly peppered flavour closely resembling Wasabi. The plants were separated and grown through a number of generations resulting in the pure version we now call Wasabi Salad.

Fast Facts

Wasabi Salad is a brassica

It has a distinctive flavour just like wasabi

It pairs beautifully with seafood or Japanese flavours

Provides a quick bite of wasabi to the palate without the lingering sensation of traditional wasabi
